# About Us

## Company overview

Our company is proud to be a trusted and reputable supplier of general hardware tools and equipment, as well as building supplies. We have been in the industry for many years, and we have built a solid reputation for providing high-quality products to a diverse range of clients across various industries. Our extensive product range includes hand tools, power tools, safety equipment, welding supplies, building materials, and much more.

We understand that having the right tools and equipment is essential for any business, which is why we only supply products that are durable, reliable, and of the highest quality. Our team of experts carefully selects each item in our product range to ensure that it meets our rigorous standards. We believe that our customers deserve nothing but the best, and we are committed to delivering products that will help them achieve their goals with ease.

In addition to our hardware tools and equipment, we also supply building supplies that are carefully selected to meet the highest standards of quality and safety. Our building materials include everything from lumber and drywall to roofing materials and insulation. We understand that building projects can be complex and challenging, which is why we offer a wide range of materials to help our customers complete their projects with ease.

At our company, we are committed to providing exceptional service and support to all our clients. Our team of experts is always available to provide advice and guidance, helping our clients make informed decisions about their purchases. We take pride in our commitment to customer satisfaction, and we go above and beyond to ensure that our customers have everything they need to achieve their goals. With our high-quality hardware tools and equipment and building supplies, we are the go-to choice for anyone in need of reliable products.

## philosophy

### Excellent Service

No bureaucracy or red tape delays in the quotation, order receipt and internal stores ordering processes. We are as lean and mean as we were on day one. We focus very hard on staying agile, all the time, even as we have grown.

We do this by tight and close management of all input costs, and continually listening to our customers and trying to meet every requirement is paramount across all our people. Urgency and flexibility are commonly applied in our business. We are not afraid to build and hold stock for our customers as required. Great service and fast delivery means holding the correct stock.

### World class quality

Our products are of world class standards. If we are going to do it, we do it world class, so there are no compromises on materials or methods.

### Great Pricing

Our products either equal or outperform our competitors, and our pricing is amazing. We do this by keeping overheads low and continually improving our in-house manufacturing processes. We pride ourselves in building up our customers slowly and surely—ensuring we retain all of them, big and small.
